<sup>1</sup> The ongoing charges reflect the total expenses charged to the result, divided by the average net asset value. For the calculation of the average net asset value, each published computation of the net asset value is taken into account. The ongoing charges are calculated over the twelve-month period ending at the end of the reporting period.

 $<sup>^{2}</sup>$  These share classes were launched during the reporting year 2018. Ongoing charges 2018 are based on best estimates.

<sup>&</sup>lt;sup>3</sup> These share classes were launched during the reporting year 2020. Ongoing charges 2020 are based on best estimates.

Triodos Sterling Bond Impact Fund was launched on October 30, 2020. Ongoing charges 2020 are based on best estimates.
 Triodos Impact Mixed Fund – Defensive and Triodos Impact Mixed Fund – Offensive were launched on June 21, 2019. Ongoing charges 2019 are based on best estimates.

### Legal structure

Triodos SICAV I (the fund) is an open-ended investment company, incorporated in 2006 under the laws of the Grand Duchy of Luxembourg as a "Société d'Investissement à Capital Variable" (SICAV) in the form of a "société anonyme" for an unlimited period. Triodos SICAV I is governed by the law of the Grand Duchy of Luxembourg of August 10, 1915 on commercial companies, as amended, and by part I of the law of December 17, 2010 on Undertakings for Collective Investment, as amended. The fund merged in 2010 with Triodos Meerwaardefonds NV, a Dutch investment company incorporated in 1997 and consisting of three sub-funds. Triodos SICAV I, including its sub-funds, is supervised by the Luxembourg regulator, the Commission de Surveillance du Secteur Financier (CSSF). The registered office of Triodos SICAV I is established at 11-13. boulevard de la Foire, L-1528 Luxembourg.

Triodos SICAV I is structured as an umbrella fund, which may provide investors access to a variety of sub-funds. Currently, Triodos SICAV I offers the following sub-funds:

- Triodos Euro Bond Impact Fund (launched on July 16, 2007);
- Triodos Global Equities Impact Fund (launched on July 16, 2007);
- Triodos Impact Mixed Fund Defensive (launched on June 21, 2019);
- Triodos Impact Mixed Fund Neutral (launched on June 25, 2010);
- Triodos Impact Mixed Fund Offensive (launched on June 21, 2019);
- Triodos Pioneer Impact Fund (launched on March 12, 2007);
- Triodos Sterling Bond Impact Fund (launched on October 30, 2020).

### Management company

The Board of Directors of Triodos SICAV I has appointed Triodos Investment Management BV (Triodos Investment Management) as its authorised UCITS management company of Triodos SICAV I. Triodos Investment Management is incorporated under the laws of the Netherlands and is a wholly-owned subsidiary of Triodos Bank NV (Triodos Bank).

Triodos Investment Management is supervised by the Dutch regulator, Autoriteit Financiële Markten.

The Management Board of Triodos Investment Management consists of: Jacco Minnaar (Chair) Kor Bosscher Dick van Ommeren

#### **Investment manager**

Triodos Investment Management is the investment manager of the fund. Triodos Investment Management has appointed:

- Jeroen van Herwaarden as Fund Manager of Triodos Euro Bond Impact Fund;
- Pieter-Jan Husken as Fund Manager of Triodos Global Equities Impact Fund;
- William de Vries as Fund Manager a.i. of Triodos Impact Mixed Fund (Defensive – Neutral – Offensive) and Fund Manager of Triodos Sterling Bond Impact Fund;
- Dirk Hoozemans as Fund Manager of Triodos Pioneer Impact Fund.

### **Depositary**

RBC Investor Services Bank SA (RBC Investor Services Bank) has been appointed as depositary for Triodos SICAV I. Additionally, RBC Investor Services Bank fulfils the roles of administrative agent, registrar and transfer agent, domiciliary agent and paying agent for the fund.

#### COVID-19

The year 2020 was dominated by the unprecedented influence of the COVID-19-pandemic. Triodos Investment Management took steps to ensure the well-being and safety of its co-workers as well as the operational resilience during this situation.

Initially, COVID-19 affected equity and bond markets negatively, as economic growth was immediately impaired and uncertainties about a recovery dominated financial markets. In search for liquidity, even the safest assets sold off. Hence, the investments of Triodos SICAV I were impacted negatively. As the dust settled, investments in the sub-funds were impacted both positively and negatively, depending on asset class, economic sector, geographic region, type of business model and type of financial instrument. Triodos Investment Management has intensified the monitoring of all investments in the portfolio of the sub-funds in the past year. This was achieved by focusing even more on strong balance sheets, resilient cash flows, quality management teams and solid governance in company and issuer selection.

The worldwide vaccination program has started. However, the development of the COVID-19 pandemic will continue to require attention in managing the fund moving forward. Local COVID-19 outbreaks may occur, and restrictions may be intensified. Thorough risk assessments of companies and issuers, and closely monitoring portfolios will support Triodos Investment Management's investment decisions.

# **Report of the Board of Directors**

The Board of Directors of Triodos SICAV I is responsible for Triodos SICAV I and each of its sub-funds. The Board endeavours to protect the interests of investors, for example by overseeing the implementation of the defined strategy of each sub-fund, and by overseeing the management company, the service providers and the audit process.

# **Passing of Corinne Molitor**

With great sadness on August 9, 2020 we received news of the unexpected passing of Corinne Molitor, member of the Board of Directors of Triodos SICAV I.

Corinne Molitor had been a member of the Board of Directors of Triodos SICAV I since 2018. With her extensive knowledge of the financial sector and dedication to promoting sustainability, she was an invaluable and highly appreciated member of the Board of Directors.

## **Board composition**

In 2020, there were changes to the composition of the Board of Directors. As at December 31, 2020, the Board of Directors consisted of:

Director	Qualification	Appointed in
Garry Pieters*	Chair, Class-P director	2015
Monique Bachner	Independent director	2016
Dick van Ommeren	Class-P director	2016
Jeroen Smakman	Class-P director	2020

<sup>\*</sup> Chair of the Board since June 24, 2016

During the Annual General Meeting of shareholders of 2021, an additional independent Director will be proposed to the shareholders to replace Corinne Molitor.

Biographies of the Directors are included in the chapter "Management and Administration".

#### **Board committees**

The Board of Directors does not currently consider it necessary to create committees.

# **Board meetings**

The Board of Directors meets at least four times a year. Additional meetings are arranged when necessary. In 2020, four regular Board meetings and two additional meetings were held. The Board also uses written resolutions where appropriate.

At each regular Board meeting, the management company, Triodos Investment Management, reports on various topics, amongst others, the state of affairs of the sub-funds, anti-money laundering and 'know your customer' matters, regulatory changes, marketing and sales activities, investment compliance monitoring and risk management.

Attendance of the Board meetings

Director	Meetings attended
Garry Pieters*	6
Monique Bachner	6
Corinne Molitor	3
Dick van Ommeren	4
Jeroen Smakman*	4

\* Director elected at the Annual General Meeting of shareholders of 22 April 2020.

## **Prospectus**

In 2020, the prospectus of Triodos SICAV I was amended. These modifications did not change the risk profiles of any of the sub-funds. In 2020, the decision was made to revisit the fund's fee structure. A revised version of the prospectus of Triodos SICAV I has been effective since January 2021. The prospectus was updated again with effect since 9 March 2021, incorporating requirements set out in the Sustainable Finance Disclosure Regulation (SFDR) pursuant to which the sub-funds of Triodos SICAV I qualify as an article 9 product in the meaning of SFDR, having sustainable investments as their investment objective.

### **Conflicts of interest**

At each Board meeting, the Directors declare whether there are conflicts of interest regarding agenda items. A Director who has conflicts of interest relating to an agenda item will declare such conflicts and abstain from the discussion and voting on any decisions relating to that agenda item. The Board also monitors potential conflicts by maintaining a conflicts of interest register.

## **Board remuneration**

According to the remuneration policy of Triodos SICAV I, each of the Directors not employed by the Triodos Group, are paid an equal fixed annual remuneration. The Board believes the remuneration of the Board reflects its responsibilities and experience and is fair given the size and complexity of Triodos SICAV I. The remuneration of the Directors is approved annually by the shareholders

at the Annual General Meeting of shareholders. The Chairman receives an additional amount, and the Annual General Meeting of 2020 approved a Chairman's supplement of EUR 5,000. Details on the remuneration paid to Directors are provided in the notes to the financial statements.

## **Annual General Meeting of shareholders**

The Annual General Meeting of shareholders was held in Luxembourg on April 22, 2020. During the meeting, the shareholders:

- received the management report of the Board of Directors and the report of the auditor for the financial year ended December 31, 2019;
- approved the audited financial statements for the financial year ended December 31, 2019;
- approved the allocation of the net results for the financial year ended December 31, 2019;
- granted full discharge to the members of the Board of Directors with respect to their performance of duties for all or part of the financial year ended December 31, 2019:
- re-elected the auditor, PricewaterhouseCoopers, to serve for the financial year 2020; and
- approved the remuneration of Directors for the financial year ending December 31, 2020.

No other meetings of shareholders were held in 2020.

# Complaints handling

Triodos SICAV I has a complaints handling policy to ensure proper handling of complaints as and when they may arise. Triodos SICAV I has appointed a Complaints Handling Officer, who is responsible for implementation of the complaints handling policy.

The complaints handling policy is available upon request and available on www.triodos-im.com.

Complaints can be submitted in writing to: Triodos SICAV I Attention: Complaints Handling Officer 11-13, Boulevard de la Foire L-1528 Luxembourg Grand-Duché de Luxembourg E-mail address: TriodosIM@triodos.com

During 2020, the Complaints Handling Officer did not receive any complaints addressed to Triodos SICAV I.

### **Best practices**

The Board of Directors aspires to best practices and good governance. For example, the Board has made efforts to ensure the diversity of its members, in terms of gender, complementary experience and expertise, and a good representation of independent Directors. The Board of Directors conducts periodic self-assessments in which it reflects on its performance and strategy.

The Board of Directors adheres to the principles of the ALFI Code of Conduct and monitors its application.

#### COVID-19

In 2020, the Board of Directors paid particular attention to the COVID-19 pandemic and its impact on Triodos SICAV I, liaising with its service providers to ensure a 'business as usual' environment. As most of the work was conducted remotely, elements such as continuity, access to information, security and controls, but also liquidity were considered and reviewed.

The Board continues to closely monitor the situation, and in particular actions taken by the management company and other service providers with respect to business continuity.

Luxembourg, April 6, 2021

The Board of Directors of Triodos SICAV I

Garry Pieters (Chair) Monique Bachner Dick van Ommeren Jeroen Smakman

# Report of the management company

The fund invests in stock and bond market listed companies that have a positive impact on the transition to a sustainable world and/or euro-denominated sovereign and sub-sovereign bonds. Investments in the fund address seven sustainable transition themes that contribute to solving global challenges posed by structural trends such as ageing population, resource scarcity, inequality and social exclusion. Each sub-fund has its own risk-return profile, applies a long-term strategy and has a concentrated portfolio.

As per December 2020, all Triodos SICAV I sub-funds have among the highest possible scores across major European sustainable investment labels, including the German-based FNG-Siegel, the Nordic Swan Ecolabel, and the Belgian Towards Sustainability label. Furthermore, the UK-based 3D Investing label was obtained by Triodos Global Equities Impact Fund, Triodos Pioneer Impact Fund and Triodos Sterling Bond Fund.

For the second consecutive year, the fund's impact report won "Best ESG Reporting by a Small- and Mid-Sized Asset Manager" from Environmental Finance in 2020.

# Impact investment approach

The sub-funds distinguish themselves by their mandates, strict principles and active dialogue with companies. The investment process starts with a long-term vision for the transition towards a more sustainable society. The fund invests in companies that progress seven sustainable transition themes:

- Sustainable Food and Agriculture;
- Sustainable Mobility and Infrastructure;
- Renewable Resources;
- Circular Economy;
- · Social Inclusion and Empowerment;
- · Innovation for Sustainability; and
- Prosperous and Healthy People.

These transition themes are the cornerstone of our stock selection process, as each company and/or issuer in the portfolio must positively contribute to one or more of these through their commercial propositions. In addition, all investments must meet the strict Triodos group-wide Minimum Standards.

The fund invests for positive change alongside a financial return in line with the broader market at acceptable risk levels, using disciplined investment criteria and a fully integrated investment and stewardship approach.

For a more extensive overview of the fund's positive impact in 2020, an annual impact report will be published

in the first half of 2021. This report, as well as regular updates, can be found on www.triodos-im.com.

### Macroeconomic developments

Because of the global disruption caused by COVID-19, 2020 will go down in history as the year that saw the deepest global economic recession in peacetime. The first series of COVID-19-related lockdown measures that started around March led to sharp drops in global business activity, as both the services and manufacturing sectors got impacted. Within developed markets, economic activity contracted most in Spain, Italy and the UK, due to prolonged national lockdowns. Within emerging markets, activity in Brazil and India was severely impacted by fierce COVID-19 outbreaks. China successfully combined complete lockdowns with advanced track and trace methods to be one of the first countries to really get the virus under control. In general, economies started to recover after these first series of lockdowns, supported by unprecedented monetary and fiscal stimulus. Several major central banks cut policy interest rates, and nearly all amplified their quantitative easing programmes. This resulted in a shape rise in monetary aggregates. Governments followed suit by implementing enormous fiscal packages that supported households and companies in distress. Until summer, there were hopes that lockdown measures could gradually be lifted further and that new virus outbreaks could be tackled by localised restrictions.

Towards the end of summer, however, global virus upsurges raised concerns amongst investors about the necessity of new national lockdowns. There were also signs that the swift global economic recovery that had been witnessed so far was losing momentum. During the fall, many developed countries did indeed impose stricter lockdown measures than before, especially the eurozone countries and the UK. This meant a new hit to economic activity, this time predominantly impacting the services sector (leisure, hotels, restaurants, tourism, etc.). The manufacturing sector proved to be rather resilient during these new series of lockdowns, because global supply chains remained mostly intact. This meant that China's economic recovery could continue, as new lockdown measures elsewhere this time did not disrupt its important manufacturing sector. Towards the end of the year, there was a glimmer of hope of putting (the worst of) the pandemic behind us, as there were reports of successful late-stage vaccine trial results. In December, most developed markets gave regulatory approval to one or more vaccines and started the rollout.

Compared to Spain, Italy and the UK, economic growth contractions in Germany, Japan and especially the US were more limited in 2020, mostly as a result of less stringent and/or shorter lockdowns. Though less severe in comparison, these countries still registered astonishing GDP contractions. China is the only major economy that grew in 2020, as a result of fierce lockdown measures that successfully contained and mitigated the spread of COVID-19. Inflation in developed markets remained far below central bank targets during 2020, although inflation expectations for the US started rising in the second half of the year in the anticipation of more substantial US fiscal support. The presented conclusions of the long-awaited policy review by the Federal Reserve also influenced US inflation expectations, as its new long-run strategy will be based on an average inflation target that allows temporary overshooting of the target. This likely means that quantitative easing and ultra-low interest rate policies will be around for even longer.

In the meantime, two other important developments contributed to the overall upbeat investor sentiment after the first quarter stock market correction. Joe Biden's US presidential election win was welcomed in anticipation of a US shift towards better international relations and more US fiscal stimulus. In the period after the election, President Donald Trump challenged the election result in various forms and courts, but even his own appointed judges would have none of it. Although unsuccessful, these attempts did expose the increased polarisation within American society. In line with this increase in polarisation, the UK and the EU were also involved in ruthless negotiations throughout the year. Only just before the end of 2020, they finally reached a long-awaited agreement on a Brexit trade deal. Compromises were made on matters such as EU fishing rights in UK waters and "level playing field" guarantees for businesses, but a deal was struck. Although the deal is limited, it was celebrated by investors because it prevented the harsh consequences of a no-deal outcome. Tensions between the US and China remained elevated during the year, escalating several times and, among other things, leading to the closure of consulates in Houston and Chengdu. These continued clashes between the world's most powerful countries raised fears of a new cold war.

Overall, the COVID-19 pandemic has increased inequality, both between and within countries. Developed countries were able to provide sizeable fiscal support to their citizens, while emerging economies faced the limitations of their fiscal spaces. Within most countries, low-income households were disproportionately impacted as blue-collar workers are heavily represented in the sectors that were shut down and are also often hired on a temporary basis. Brick-and-mortar businesses

struggled, while providers of online solutions benefitted from the social restrictions. As a result, the economic recession induced by COVID-19 is projected to delay progress towards several of the world's 2030 Sustainable Development Goals (SDGs) by a further decade.

#### Market developments

As for global equity markets, despite already being richly valued, there was no indication of a correction of this magnitude at the start of the year. Markets initially continued their seemingly never-ending upward trend. Then, suddenly, the worldwide spread of COVID-19 and related lockdown measures raised concerns over a long-lasting and heavy blow to the global economy. This led to a freefall of global equity indices that started at the end of February and found a bottom towards the end of March. The combined unprecedented monetary and fiscal stimuli were an important driver of the strong global equity market rebound that started from this bottom. However, newly imposed lockdown measures during the fall resulted in global equity market corrections during September and October.

Thereafter, equity markets rallied for the remainder of the year. This was mostly the result of positive vaccine developments and the simplistic narrative of central banks having investors' backs should markets turn sour. The start of the vaccine rollout in several developed markets made investors take a headstart on the strong economic recovery that is anticipated once a substantial part of the population has been vaccinated.

On a regional level, annual equity returns were severely impacted in Europe, as multiple series of prolonged lockdown measures in several EU member states hurt economic activity and prevented a complete equity market rebound. US equity returns experienced a strong and complete rebound after the initial freefall of equity markets, fueled by the aforementioned monetary and fiscal stimulus and the performance of a few big tech companies captured in acronyms such as FAANG (Facebook, Apple, Amazon, Netflix, Google) and other stock name variations that also include Tesla. Aggregated emerging market equity returns also recovered substantially, on the back of China's strong economic recovery and a weakening US dollar. On a sector level, two sectors stood out: Information Technology and Consumer Discretionary, both of which were major beneficiaries as our world moved online during times of social distancing. Energy and Financials, on the other hand, took a severe hit during the year as travel came to an abrupt halt and yield curves flattened on the back of central banks buying massive amounts of bonds. Also, global economic weakness is expected to cause financial distress at a

variety of mostly smaller and midsized companies, which will ultimately result in more non-performing loans, thereby affecting Financials.

Overall, bond markets performed well during the year, despite spikes in volatility. The outbreak of the coronavirus initially triggered a move into safe havens, compressing yields on the safest government bonds and sharply increasing risk spreads. Throughout the year, bond yields remained low as markets focused on renewed virus outbreaks and lockdown measures, weak economic growth and inflation, and huge monetary accommodation. Towards the end of the year, global bond yields experienced upward pressure from higher US Treasury yields. The Biden administration is expected to step up fiscal support, leading to higher inflation and heavier issuance of government debt. Corporate bonds generated positive annual returns as the overall risk sentiment recovered, mainly on the back of the large stimulus packages and positive vaccine news. Government bonds of European peripheral countries outperformed the broader government bond market, as country spreads tightened further over the year.

### **Triodos Euro Bond Impact Fund**

### **Investment strategy**

Global bond markets generated positive returns during the turbulent year of 2020. A cascade of global fiscal and monetary stimulus measures to fight the negative impact of the COVID-19 pandemic kept both interest rates and risk premiums low. The sub-fund remained defensively positioned with a broadly neutral duration and an overweight position in high-quality bonds. The focus remained on increasing positive impact, by selecting bond issuers and impact bonds that have a clear fit with one of the seven Triodos sustainable transition themes.

In 2020, six bond issuers were removed from the portfolio, whereas also six new bond issuers were added. Italian utility company Hera was sold for not meeting the Triodos Minimum Standards. Related to COVID-19, the sub-fund reduced its cyclical exposure by removing automobile-related companies Valeo, Renault and RCI Banque, and commercial real estate names Klépierre and Unibail Rodamco from the portfolio.

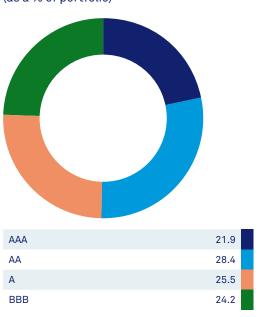

Within Sustainable Mobility and Infrastructure, a green bond issued by Japan Finance Organization for Municipalities (JFM) was added. Within the same theme, the sub-fund also added grid operators Enexis, Fluvius and TenneT. The bonds from Enexis and TenneT are classified as corporate bonds, whereas the bond from Fluvius is classified as a green bond. Two German bond issuers were added within the Prosperous and Healthy People theme: adidas, the manufacturer of athletic and sports lifestyle products, and Fresenius Medical Care, a provider of products and services for kidney disease patients.

#### **Performance**

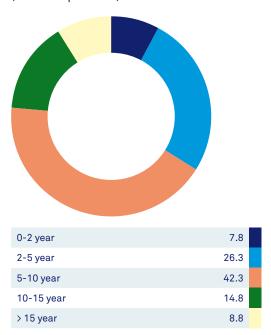

In 2020, the total net assets of Triodos Euro Bond Impact Fund grew from EUR 309.0 million to EUR 352.7 million. During this period, the sub-fund (Z-Dis) achieved a return of 2.7% (net of fees, including reinvestment of dividends), while the benchmark yielded 3.7%.

The defensive allocation resulting from an underweight position in corporates and an overweight position in government-related bonds compared to the benchmark had a negative impact on the relative performance of the sub-fund. The selection effect and curve carry contribution were neutral on a portfolio level. The curve change contribution was positive.

### **Triodos Global Equities Impact Fund**

### **Investment strategy**

Global equity markets ended the turbulent year of 2020 in positive territory. A cascade of global fiscal and monetary stimulus measures to fight the negative economic impact of the COVID-19 pandemic acted as fuel for rising equity markets. Overall valuations became even more lofty than they had been at the end of 2019. The sub-fund continued to focus on selecting companies with supportive valuations, a clear thematic fit with one of the Triodos sustainable transition themes and a better impact and ecological footprint.

During the year, nine companies were removed from the portfolio, whereas nine new holdings were initiated. The last remaining best-in-class name, Diageo, was sold in line with the strategy to phase out all best-in-class names. Several companies were removed from the portfolio on the grounds of either valuation, hiccups in the business strategy or a change in the business environment due to post-COVID-19 circumstances.

UK frozen food producer Nomad Foods (US-listed) was added within the Sustainable Food & Agriculture theme. Two Japanese companies were added within the Social Inclusion and Empowerment theme: Kyoritsu Maintenance, which operates and manages hotels and dormitories and temping agency Persol. Also in Japan, in the Prosperous & Healthy People theme, recently-listed musical instrument manufacturer Roland was added into the fund. German specialty chemical company Evonik and Japanese housing company Sekisui House were classified in the Sustainable Mobility & Infrastructure theme. And finally, French/Italian company STMicroelectronics and US cybersecurity company NortonLifeLock were added within the Innovation for Sustainability theme. Overall, the sub-fund remains significantly overweight in Japan, based on attractive valuations and strong top-down governance initiatives, as well as a bottom-up sustainability focus of companies.

#### **Performance**

In 2020, the total net assets of Triodos Global Equities Impact Fund grew from EUR 898.6 million to 977.5 million. During this period, the sub-fund (Z-Dis) achieved a return of 6.4% (net of fees, including reinvestment of dividends), while the benchmark yielded 6.5%.

Gross of fees, the slight outperformance was mainly driven by an overall positive contribution of the sector and currency allocations. Especially being underweight in Financials and Energy contributed positively, while being underweight in Information Technology was a drag on the relative performance. Stock selection was negative, especially in Consumer Discretionary, Communication Services and Consumer Staples, whereas selection in Industrials and Materials contributed positively.

Top 10 holdings as at December 31, 2020

## **Triodos Sterling Bond Impact Fund**

### **Investment strategy**

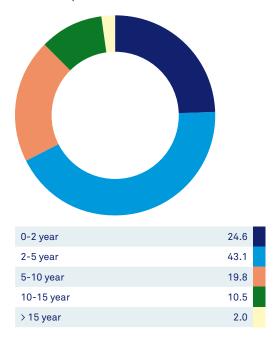

Global bond markets generated positive returns in the turbulent year of 2020. A cascade of global fiscal and monetary stimulus measures to fight the negative impact of the COVID-19 pandemic kept both interest rates and risk premiums low. The lengthy and difficult Brexit negations added to the uncertainty, which was particularly reflected in the UK bond market. The prospect of a hard Brexit drove Gilt interest rates lower. Triodos Sterling Bond Impact Fund was launched in November 2020 and the bond portfolio was gradually built up in the last two months of the year. Given the uncertainty, the portfolio is defensively positioned with a broadly neutral duration (around 5 years) and an overweight position in high-quality bonds. The focus is on increasing positive impact by selecting bond issuers and impact bonds that have a clear fit with one of the seven Triodos sustainable transition themes.

At the end of December 2020, an allocation to the Sustainable Mobility and Infrastructure theme was established by buying sterling-denominated bonds of East Japan Railway, Prologis, SNCF Réseau and Toyota. Under the Renewable Resources theme bonds issued by United Utilities Water and a qualified use-of-proceeds green bond issued by the European Investment Bank were added. For the Social Inclusion and Empowerment theme, the sub-fund bought bonds issued by BNG Bank, EIB, Deutsche Telekom, Kreditanstalt für Wiederaufbau, Nederlandse Waterschapsbank and Vodafone. For liquidity and duration risk management purposes, the sub-fund maintained an allocation to short-maturity UK Gilts and cash in the portfolio.

### Top 3 sovereign bond holdings as at December 31, 2020

Name		% of net assets
0.125% United Kingdom Government bond 2020 - 2024	Regular bond	13.0
4.000% United Kingdom Government bond 2009 - 2022	Regular bond	10.1
0.500% United Kingdom Government bond 2016 - 2022	Regular bond	9.8

### **Performance**

Since the sub-fund's inception on October 30, 2020, the total net assets of Triodos Sterling Bond Impact Fund have grown to GBP 6.2 million. During this period, the sub-fund (KI-Cap) achieved a return of 0.5% (net of fees), while the benchmark yielded 0.9%.

The composition of the portfolio, which reflects our defensive stance through an underweight position in corporates and an overweight position in government-related bonds compared to the benchmark, had a negative impact on the relative performance of the sub-fund. Both the selection effect and the allocation effect were negative, as Sterling corporates outperformed strongly in November and December.

Given the short existence of the sub-fund, there are no performance figures available yet.

# Triodos Impact Mixed Fund (TIMF) – Defensive, Neutral, Offensive

#### **Investment strategy**

Global equity markets and bond markets ended the turbulent year of 2020 with positive results. A cascade of global fiscal and monetary stimulus measures to fight the negative impact of the COVID-19 pandemic acted as fuel for rising equity markets and kept both interest rates and risk premiums low. Equity valuations became even more lofty than they had been at the end of 2019. The sub-funds remain defensively positioned, with an underweight position in equities and an overweight position in high-quality bonds.

In 2020, 10 equity names and 6 bond names were removed from Triodos Impact Mixed Fund-Neutral, whereas respectively 9 new equity and 4 bond names were added. During 2020, the portfolio holdings of Triodos Impact Mixed Fund-Defensive and Triodos Impact Mixed Fund-Offensive were further aligned with the holdings of Triodos Impact Mixed Fund-Neutral. As a rule, the portfolio holdings of the sub-funds are aligned as much as possible.

Italian utility company Hera was sold for not meeting the Triodos Minimum Standards. Related to COVID-19, the sub-fund reduced its cyclical exposure by removing automobile-related companies Valeo, Renault and RCI Banque, and commercial real estate names Klépierre and Unibail Rodamco from the portfolio.

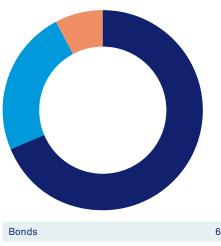

New equity names for Triodos Impact Mixed Fund-Neutral are UK frozen food producer Nomad Foods (Sustainable Food & Agriculture), US medical technology company Intuitive Surgical (Prosperous and Healthy People), Japanese musical instrument manufacturer Roland (Social Inclusion & Empowerment), Japanese hotels and dormitories operator Kyoritsu Maintenance (Prosperous and Healthy People), Japanese temping agency Person (Social Inclusion and Empowerment), German specialty chemical company Evonik (Sustainable Mobility and Infrastructure), Japanese housing company Sekisui House (Sustainable Mobility and Infrastructure), French/Italian semiconductor manufacturer STMicroelectronics (Innovation for Sustainability) and US cybersecurity company NortonLifeLock (Innovation for Sustainability).

New bond names for Triodos Impact Mixed Fund-Neutral are grid operators Enexis, Fluvius and TenneT. The bonds from Enexis and TenneT are classified as corporate bonds under the theme of Sustainable Mobility and Infrastructure. The bond from Fluvius is classified as a green bond under the theme of Sustainable Mobility and Infrastructure. Furthermore, under the same theme, a green bond from Japan Finance Organization for Municipalities (JFM) was added to the bond portfolio. The sub-fund also added adidas to the bond portfolio. Adidas was already a constituent of the equity part of the portfolio. Adidas is a German manufacturer of athletic and sports lifestyle products. The company contributes to the Prosperous and Healthy People theme. Also, in that same theme, we added a bond from Fresenius Medical Care, a provider of products and dialysis services for kidney disease patients.

# Performance Triodos Impact Mixed Fund – Defensive

In 2020, the total net assets of Triodos Impact Mixed Fund – Defensive grew from EUR 19.6 million to 33.8 million. During this period, the sub-fund (Z-Dis) achieved a return of 3.8% (net of fees, including reinvestment of dividends), while the benchmark yielded 4.7%.

The defensive asset allocation, resulting from an underweight position in equity and an overweight position in cash, had a negative impact on the sub-fund's relative performance. Both the allocation and currency effect were positive, whereas the security selection effect was negative.

#### Performance based on net asset value as at December 31, 2020

(including reinvestment of dividends, including costs)

<sup>&</sup>lt;sup>2</sup> Launched on December 3, 2020.

Net total return. n/a: not applicable

# Performance Triodos Impact Mixed Fund – Neutral

In 2020, the total net assets of Triodos Impact Mixed Fund – Neutral grew from EUR 426.5 million to 567.5 million. During this period, the sub-fund (Z-Dis) achieved a return of 4.8% (net of fees, including reinvestment of dividends), while the benchmark yielded 5.6%.

The defensive asset allocation, resulting from an underweight position in equity and an overweight position in cash, had a negative impact on the sub-fund's relative performance. Both the allocation and currency effect were positive, whereas the security selection effect was negative. Equity, particularly the absence of stocks in the Energy and Financials sectors, and fixed income contributed positively to the allocation effect. The negative selection effect was mainly caused by the stock selection within Consumer Discretionary and Communication Services.

## **Triodos Pioneer Impact Fund**

#### **Investment strategy**

After a swift and severe stock market correction in the first quarter of 2020, global equity markets ended the year in positive territory on the back of unprecedented fiscal and monetary stimulus measures to fight the economic fallout of the COVID-19 pandemic across the globe. As lockdowns and travel restrictions hampered economic mobility, the online economy accelerated while the 'real' economy stalled. And despite an uncertain economic growth outlook, caught between lockdown measures and vaccine-driven optimism, stock markets started discounting an economic recovery in the latter half of the year, pushing valuations to even more lofty levels than the year before.

The sub-fund continued to focus on selecting companies with solid fundamentals, strong balance sheets and impact-focused management teams, supported by decent cash flow-based valuations, diversifying portfolio risk over and within themes and regions as well as over different types of business models.

Positions in US paper manufacturing equipment supplier Kadant (deteriorating fundamentals) and US organic grocery store chain Sprouts Farmers Market (execution issues) were sold, as were holdings in US medical equipment company Becton Dickinson (lack of theme fit, falling confidence in business model) and Irish insulation materials company Kingspan (association with 2017 Grenfell tower fire carries significant risk).

The sub-fund established new positions in Danish hearing aid manufacturer GN Store Nord and Finnish healthcare services provider Terveystalo and participated in the IPO of Japanese electronic musical instrument maker Roland. All these positions come under the Prosperous & Healthy People theme. New positions were also established in Dutch fermentation-based ingredients and bioplastics company Corbion (Sustainable Food & Agriculture theme) and in US water infrastructure supplier Mueller Water Products and Japanese renewable energy developer and producer Renova (Renewable Resources theme). Within the Circular Economy theme, US stormwater management pipe manufacturer Advanced Drainage Systems was added, while US affordable higher education provider Strategic Education was included within the Social Inclusion & Empowerment theme.

#### **Performance**

In 2020, the total net assets of Triodos Pioneer Impact Fund grew from EUR 355.6 million to EUR 485.4 million. During this period, the sub-fund (Z-Cap) achieved a return of 21.9% (net of fees), while the benchmark rose 6.3%.

The outperformance was driven by both stock selection and sector allocation, whereas the sub-fund's cash position contributed negatively to its relative return. Especially the sub-fund's underweight positions in Energy, Financials and Real Estate and the overweight positions in Information Technology and Industrials contributed positively to the relative performance. Stock selection was most negative in Communication Services and Materials and most positive in Financials, Information Technology and Utilities.

## Risk management

The sub-funds of Triodos SICAV I and all their investments are exposed to a variety of risks. Each sub-fund is intended for long-term investors who can accept the risks associated with investing primarily in the securities of the type held in that sub-fund. In addition, investors should be aware of the risks associated with the active management techniques that may be employed by the management company. An investment in shares of a sub-fund does not constitute a complete investment program. Investors may wish to complement an investment in a sub-fund with other types of investments.

#### Operational risks

Triodos Investment Management ensures adequate management of the relevant risks. The management company has therefore established an integral risk management system, which includes the risk management policy of each of the sub-funds of Triodos SICAV I and the risk management framework of the management company. The non-financial risks consist of operational risks and compliance risks. Operational risks are risks of financial losses due to inadequate or failing internal processes, people and systems, or due to external events. Compliance risks are risks related to failure to comply with applicable laws and regulations. These risks are identified, assessed, managed and monitored on an ongoing basis through appropriate procedures and reports. These risks are assessed on the basis of a pre-defined and quantified risk appetite based on the risk appetite at Triodos group level.

Risk management has been set up in accordance with the three-lines-of-defence model. The first line (the manager's executive function), the second line (the risk management function) and the third line (the internal audit function) operate independently of each other. The risk management function in the second line and the internal audit function in the third line are functionally and hierarchically separated from the sub-fund's management.

### Risk management function

Triodos Investment Management has a Risk & Compliance application that enables integrated management of all risk related issues. This includes our integral risk management system, our internal 'Control Testing' and its outcomes, and our procedures relating to risk event management. In addition, the results of risk and control self-assessments are recorded, as well as the translation of the results of these sessions into the integrated risk management system. The application provides a central capture ('audit trail') for all of the above. Knowledge sessions and awareness training sessions are organised for new employees.

#### **ISAE 3402**

The objective of an ISAE 3402 report is to provide assurance to external parties on the quality of the internal control measures relating to the services provided by the Fund Manager. There are two types of ISAE 3402 report. A type I ISAE 3402 report assesses the design and implementation of control measures. A type II ISAE 3402 report not only assesses the design and implementation of control measures, but also the operational effective functioning of these control measures during the period audited.

On 12 March 2021, Triodos Investment Management issued a type II report, with an unqualified opinion from its auditor covering the period from 1 January 2020 up to and including 31 December 2020. The auditor's opinion is included in the assurance report.

#### **Solvency**

Triodos Investment Management complies with the minimum solvency requirements imposed on managers of investment institutions in accordance with the Dutch Decree on prudential rules under the Financial Supervision Act (BPR), AIFMD and the Dutch Civil Code. This makes Triodos Investment Management a robust party that can absorb setbacks to a sufficient extent.

### Financial risks per sub-fund

#### **Triodos Euro Bond Impact Fund**

Investments in Triodos SICAV I are subject to several risks, which are described in detail in the prospectus. Some of the relevant financial risks are highlighted below. Triodos Euro Bond Impact Fund primarily invests in euro-denominated corporate bonds, impact bonds, sovereign bonds and sub-sovereign bonds that comply with the sustainable investment strategy described in the general part of the prospectus of Triodos SICAV I (section on "Sustainability assessment") and offer good investment prospects.

#### Interest rate risk

Interest rate risk is the risk that interest rate changes on the financial markets have a negative impact on the profit and net asset value of the sub-fund. Values of fixed-income securities generally fluctuate in inverse proportion to changes in interest rates and such fluctuations may affect bond prices accordingly. Triodos Euro Bond Impact Fund is exposed to interest rate risk. This risk is reflected by the modified duration of the portfolio, which was 7.4 as at December 31, 2020. The modified duration of the benchmark was 7.2.

#### Credit default risk

Credit default risk is the risk that a debt issuer defaults on its debt obligations towards the sub-fund, and the losses that might be incurred as a result. This risk is mitigated by carefully assessing the credit quality of the obligor when selecting a bond issue and is further limited by refraining from buying bonds below investment grade (BBB). In 2020, no defaults were reported for the portfolio of Triodos Euro Bond Impact Fund. The credit default risk of the sub-fund, measured in terms of the weighted average rating of the portfolio, is AA. The average rating of the benchmark is A.

#### **Triodos Global Equities Impact Fund**

Triodos Global Equities Impact Fund primarily invests in shares of large-cap companies that are listed on worldwide markets, comply with the sustainable investment strategy described in the general part of the prospectus of Triodos SICAV I (section on "Sustainability Assessment") and offer good investment prospects.

#### **Equity price risk**

Equity price risk is the risk that arises from security price volatility, the risk of a decline in the value of a security or a portfolio. Equity price risk can be either systematic or unsystematic risk. The unsystematic equity risk can be mitigated through diversification. The sub-fund avoids large exposures to any single issuer, sector or country. The diversification of the portfolio across these categories is shown on page 60 and further. The sub-fund does not use financial derivatives to hedge against systematic risk.

#### **Currency risk**

Currency risk is the risk that unfavourable changes in exchange rates have a negative impact on the profit and net assets of the sub-fund. Currency exchange rates may fluctuate significantly over short periods of time, which may also contribute to fluctuations in the sub-fund's performance. The reference currency for Triodos Global Equities Impact Fund is the euro, but investments may be denominated either in euros or in foreign currencies. Currency exposure affects the sub-fund's performance, irrespective of the performance of its securities investments, since the currency risks that arise through non-euro denominated investments are not hedged. The sub-fund's currency exposure as a percentage of the portfolio is shown on the right.

#### Breakdown by currency as at December 31, 2020

(as a % of total assets)

EUR	30.9
JPY	27.6
USD	23.5
DKK	5.8
GBP	1.35
CHF	4.7
SEK	4.0
NOK	2.2

#### **Triodos Sterling Bond Impact Fund**

Triodos Sterling Bond Impact Fund primarily invests in Sterling pound-denominated corporate bonds, impact bonds, sovereign bonds and sub-sovereign bonds that comply with the sustainable investment strategy described in the general part of the prospectus of Triodos SICAV I (section on "Sustainability assessment") and offer good investment prospects.

#### Interest rate risk

Interest rate risk is the risk that interest rate changes on the financial markets have a negative impact on the profit and net asset value of the sub-fund. Values of fixed-income securities generally fluctuate in inverse proportion to changes in interest rates and such fluctuations may affect bond prices accordingly. Triodos Sterling Bond Impact Fund is exposed to interest rate risk. This risk is reflected by the modified duration of the portfolio, which was 4.6 as at December 31, 2020. The modified duration of the benchmark was 5.5.

### Credit default risk

Credit default risk is the risk that a debt issuer defaults on its debt obligations towards the sub-fund, and the losses that might be incurred as a result. This risk is mitigated by carefully assessing the credit quality of the obligor when selecting a bond issue and is further limited by refraining from buying bonds below investment grade (BBB). In 2020, no defaults were reported for the portfolio of Triodos Sterling Bond Impact Fund. The credit default risk of the sub-fund, measured in terms of the weighted average rating of the portfolio, is AA. The average rating of the benchmark is A.

#### Mixed funds (Defensive / Neutral / Offensive)

The Triodos Impact Mixed funds (Defensive, Neutral or Offensive; "the Mixed funds") primarily invest in shares of large-cap companies listed on worldwide markets and in euro-denominated corporate bonds, impact bonds, sovereign bonds and sub-sovereign bonds that comply with the sustainable investment strategy described in the general part of the prospectus of Triodos SICAV I

(section on "Sustainability assessment") and offer good investment prospects.

#### **Equity price risk**

Equity price risk is the risk that arises from security price volatility, the risk of a decline in the value of a security or a portfolio. Equity price risk can be either systematic or unsystematic risk. The unsystematic equity risk can be mitigated through diversification. The sub-funds avoid large exposures to any single issuer, sector or country. The diversification of the portfolio across these categories is shown on pages 67, 75 and 84, and further for the Defensive, Neutral and Offensive fund, respectively. The sub-funds do not use financial derivatives to hedge against systematic risk.

#### **Currency risk**

Currency risk is the risk that unfavourable changes in exchange rates have a negative impact on the profit and net assets of the sub-funds. Currency exchange rates may fluctuate significantly over short periods of time, which may also contribute to fluctuations in the sub-funds' performance. The reference currency for the Mixed funds is the euro, but part of the equity portfolio of the Mixed funds may be invested in financial instruments denominated either in euros or in foreign currencies. Currency exposure affects the sub-funds' performance, irrespective of the performance of its securities investments, since the currency risks that arise through non-euro denominated investments are not hedged. The sub-funds' currency exposure as a percentage of the portfolio is shown in the table below.

# Breakdown by currency as at December 31, 2020 (as a % of total assets)

#### Interest rate risk

Interest rate risk is the risk that interest rate changes on the financial markets have a negative impact on the profit and net asset value of the sub-funds. Values of fixed-income securities generally fluctuate in inverse proportion to changes in interest rates and such fluctuations may affect bond prices accordingly. The Mixed funds are exposed to interest rate risk. This risk is

reflected by the modified duration of the portfolio, which is shown in the table below.

#### Modified duration as at December 31, 2020

Modified duration TIMF-D	6.9
Modified duration TIMF-N	7.1
Modified duration TIMF-O	6.1
Modified duration benchmark	7.2

#### Credit default risk

Credit default risk is the risk that a debt issuer defaults on its debt obligations towards the sub-funds, and the losses that might be incurred as a result. This risk is mitigated by carefully assessing the credit quality of the obligor when selecting a bond issue and is further limited by refraining from buying bonds below investment grade (BBB). In 2020, no defaults were reported for the portfolio of the Mixed funds. The credit default risk of the sub-funds, measured in terms of the weighted average rating of the portfolio, is shown in the table below.

#### Weighted average rating as at December 31, 2020

Average rating TIMF-D	AA
Average rating TIMF-N	AA
Average rating TIMF-O	AA
Average rating benchmark	Α

#### **Triodos Pioneer Impact Fund**

Triodos Pioneer Impact Fund primarily invests in shares issued by small and medium-sized listed companies that are listed on worldwide markets, comply with the sustainable investment strategy described in the general part of the prospectus of Triodos SICAV I (section on "Sustainability Assessment") and offer good investment prospects.

## **Equity price risk**

Equity price risk is the risk that arises from security price volatility, the risk of a decline in the value of a security or a portfolio. Equity price risk can be either systematic or unsystematic risk. The unsystematic equity risk can be mitigated through diversification. The sub-fund avoids large exposures to any single issuer, sector or country. The diversification of the portfolio across these categories is shown on page 91 and further. The sub-fund do not use financial derivatives to hedge against systematic risk.

#### **Currency risk**

Currency risk is the risk that unfavourable changes in exchange rates have a negative impact on the profit and net assets of the sub-fund. Currency exchange rates may fluctuate significantly over short periods of time, which may also contribute to fluctuations in the sub-fund's performance. The reference currency for Triodos Pioneer Impact Fund is the euro, but investments may be denominated either in euros or in foreign currencies. Currency exposure affects the sub-fund's performance, irrespective of the performance of its securities investments, since the currency risks that arise through non-euro denominated investments are not hedged. The sub-fund's currency exposure as a percentage of the portfolio is shown below.

#### **Outlook**

#### Macroeconomic outlook

The global economy has entered a new phase of the pandemic, in which vaccines are being rolled out in most developed markets. At the same time, the virus is still surging in most of these countries. The increased likelihood of extended lockdowns in Europe well into the first months of 2021 is a further blow to the eurozone's fragile recovery. Recently reported records for new daily COVID-19 infections in the US also do not bode well for its economic growth prospects in the first quarter of 2021. Similarly, the rapid spread of COVID-19 across Japan induced a new state of emergency that will hamper the country's economic activity. Overall, this likely means that it will be difficult for the anticipated global economic recovery to fully lift off in the first quarter of 2021, which means substantial improvement in economic activity is likely to only materialise from the second quarter onwards.

Pre-pandemic activity levels can only be reached once a vaccine has become widely available. Despite the start of the vaccine roll out, Triodos Investment Management does not expect this to happen before the second half of 2021. The COVID-induced recession is likely to leave permanent economic scars. Therefore, monetary and

fiscal policies will remain extremely accommodative. Central banks may at some point even reach the limits of their options. This implies a danger of future inflation. In the short to medium term, however, disinflationary effects of weaker demand are likely to outweigh any boost from supply shortages.

#### **Bond markets outlook**

The coronavirus and the oil price shock have triggered a massive disruption of the global economy. 'Safe haven' government bond yields remain near historical lows. Hence, their return potential is low. The global economy is, however, in the midst of a low-yield environment that will likely continue for quite some time. Corporate bonds initially corrected sharply, but spreads have narrowed again. The growth environment requires caution when it comes to credits. Triodos Investment Management prefers high-quality names, as the collapse in economic activity is likely to trigger a rise in downgrades. Overall, Triodos Investment Management remains neutral in bonds.

#### **Equity markets outlook**

Triodos Investment Management remains cautious with regard to the return opportunities for equities. Because of last year's strong equity market performance, equity valuations have become even more elevated relative to earnings power. The US equity market still appears the most expensive on a variety of metrics, both relative to other regions and from a historical perspective. European and Asian markets, including Japan, look more attractively priced relative to the US. Earnings estimates have come down, but expectations of a broad and firm earnings recovery are still relatively high considering the muted economic outlook. Hence, negative earnings surprises are lurking and if they materialise lower equity prices and valuations would be entirely justified. Triodos Investment Management does not believe that the current valuations properly reflect the underlying fundamentals and assumes that central banks cannot keep financial assets inflated forever. Triodos Investment Management therefore remains underweight in equities.

### Sustainable investment opportunities

Triodos Investment Management certainly expects to find opportunities in the sustainable investment landscape. The European Green Deal, the EU's roadmap for making its economy sustainable, will likely gain momentum. The related development of a green taxonomy will enable investors to steer investments towards more sustainable technologies and businesses, and the creation of an EU Green Bond Standard will deliver a uniform tool to assess green bonds. The Green Deal will also force companies to become more transparent and can serve as an example for the rest of the world. Outside of Europe, Triodos Investment Management expects to continue

to find sustainable investment opportunities in Japan, where corporate governance continues to improve due to top-down governance initiatives, while bottom up the Sustainable Development Goals are high on companies' agendas. In the US large-cap segment of the market, however, it remains difficult to find enough sustainable investment opportunities that meet our minimum standards. In the smaller company space, there are still interesting pioneers, but these come at lofty valuations. Joe Biden's Presidential election win provides some hope, as it may lead to improved US regulation that steers companies into a more sustainable and greener direction. Biden's vow to re-join the Paris climate agreement gives cause for some optimism.

Overall, the management company hopes that the coronavirus crisis will lead to a continued sense of urgency that facilitates a transition towards a more resilient and sustainable economic and social system. In that respect, it is encouraging that several countries (including China and Japan) and companies have stepped up their climate goals. Triodos Investment Management will continue to contribute to this envisioned transition by focussing on investments that support climate mitigation and adaption and the fulfilment of the Sustainable Development Goals in the next ten years.

# Remuneration policy

Triodos Bank and Triodos Investment Management believe good and appropriate remuneration for all its co-workers is very important. The core elements of the international remuneration policy of Triodos Bank are set out in the Principles of Fund Governance, which can be accessed via www.triodos-im.com. The wage system used by Triodos Bank and as per January 1, 2019, also used by Triodos Investment Management does not include bonuses or share option schemes. Financial incentives are considered an inappropriate way to motivate and reward co-workers. Variable remuneration is therefore limited. The Management Board of Triodos Investment Management annually assesses the remuneration policy. Identified staff include all co-workers who may influence the risk profile of the sub-funds. Besides the members of the Management Board of Triodos Investment Management, these include the fund managers and the managers of support departments.

In 2020, the total remuneration of the 207 co-workers working for Triodos Investment Management amounted to EUR 19,570,937 (2019: 186 co-workers, EUR 18,199,737). The increase in remuneration of 2020 versus 2019 can entirely be explained by a combination of a yearly increase in wages, a collective labour agreement impact and an increase of co-workers. In addition, the

remuneration of one entity (Women's World Banking) is included in the remuneration of Triodos Investment Management since 2020 due to the liquidation of Triodos Investment Advisory Services (TIAS) in 2020. TIAS was a sister company of Triodos Investment Management.

Management companies of UCITS funds are required to at least disclose information about their remuneration practices for employees whose professional activities have a material impact on those funds' risk profile (so-called "identified staff"). The tables above provide an overview of the total remuneration, broken down into fixed and variable remuneration, and the remuneration of the senior management and the identified staff. The cost allocation model of the management company is used for the allocation of staff to Triodos SICAV I. In 2018, Triodos Investment Management improved its allocation method for the allocation of indirect costs. As of 2018, indirect expenses are allocated using a key three components approach (FTE, income and Assets under management). As these tables are intended to show the remuneration of co-workers, all other costs incurred by the management company of the fund, such as housing, workplace and travel costs and the cost of outsourced activities and external consultants, are excluded. The amounts shown in the tables include income tax, social security contributions, pension contributions and tokens of appreciation.

Triodos Investment Management may provide additional bonuses to co-workers up to a maximum of one month's salary. These so-called tokens of appreciation are for extraordinary achievements and are at the discretion of management in consultation with Human Resources. Such a token is not based on pre-set targets and is always offered in retrospect. This very modest amount is the same for all co-workers, with a maximum of EUR 500 (gross) per co-worker. This amount may be paid in cash or in Triodos Bank NV depository receipts. An annual collective token of appreciation may be paid for the overall achievements and contribution of all co-workers. In 2020 and 2019, no collective end-of-year token of appreciation were awarded. In 2020 and 2019, there are no co-workers at Triodos Investment Management with a total remuneration of EUR 1 million or more. Triodos SICAV I does not have any co-workers.

# Notes to the Financial Statements as at December 31, 2020

#### Note 1 - General

Triodos SICAV I is an open-ended investment company with a designated management company, incorporated under the laws of the Grand Duchy of Luxembourg as a "Société d'Investissement à Capital Variable" (SICAV) in the form of a "société anonyme". Triodos SICAV I is governed by the law of the Grand Duchy of Luxembourg of August 10, 1915 on commercial companies, as amended, and by part I of the Law of December 17, 2010, as amended. Triodos SICAV I has appointed Triodos Investment Management as its authorised UCITS management company.

The fund (and each of its sub-funds) does not qualify as a "structured UCITS" within the meaning of article 36(1) of Commission Regulation (EU) No 583/2010 of July 1, 2010 implementing Directive 2009/65/EC.

The fund has been incorporated under the name of Triodos SICAV I for an unlimited period. The registered office of Triodos SICAV I is established at 11-13, boulevard de la Foire, L-1528 Luxembourg.

The articles of incorporation of Triodos SICAV I were last amended at the extraordinary general meeting of shareholders held on March 23, 2018 and published in the Recueil des Sociétés et Associations (RESA) on May 18, 2018. The R.C.S. number of the fund is B119.549.

The shares to be issued shall be issued in several separate sub-funds of Triodos SICAV I. A separate portfolio of assets is maintained for each subfund and is invested in accordance with the investment objective for that sub-fund. As a result, Triodos SICAV I is commonly known as an "umbrella fund" enabling investors to choose between one or more investment objectives by investing in one or more sub-funds. Investors may choose which sub-fund(s) may be most appropriate for their specific risk and return expectations as well as their diversification needs.

As per December 31, 2020, Triodos SICAV I has seven sub-funds that are opened to investors:

- Triodos Euro Bond Impact Fund (launched on July 16, 2007), known as Triodos Sustainable Bond Fund until May 15, 2019
- Triodos Global Equities Impact Fund (launched on July 16, 2007), known as Triodos Sustainable Equity Fund until May 15, 2019
- Triodos Sterling Bond Impact Fund (launched on October 30, 2020)
- Triodos Impact Mixed Fund Defensive (launched on June 21, 2019)
- Triodos Impact Mixed Fund Neutral (launched on June 25, 2010), known as Triodos Sustainable Mixed Fund until May 15, 2019
- Triodos Impact Mixed Fund Offensive (launched on June 21, 2019)
- Triodos Pioneer Impact Fund (launched on March 12, 2007), known as Triodos Sustainable Pioneer Fund until May 15, 2019

All the sub-funds are denominated in euros except for Triodos Sterling Bond Impact Fund which is denominated in GBP. The sub-funds may offer shares of the following classes:

- Class D Capitalisation (EUR)\*
- Class D Distribution (EUR)\*
- Class R Capitalisation (EUR)
- Class R Distribution (EUR)
- Class P Capitalisation (EUR)
- Class P Capitalisation (GBP)
- · Class K Institutional-Capitalisation (GBP)
- Class K Institutional-Distribution (GBP)
- Class K Retail-Capitalisation (GBP)
- Class K Retail-Distribution (GBP)
- Class I Capitalisation (EUR)
- Class I Distribution (EUR)
- Class I-II Capitalisation (EUR)
- Class I-II Distribution (EUR)
- Class S Capitalisation (EUR)\*
- Class S Distribution (EUR)\*

- Class Z Capitalisation (EUR)
- Class Z Distribution (EUR)

Subscription to Class D shares is only open to appointed discretionary portfolio managers which have established an investment discretionary relationship in writing with their clients in return for a fee. Class D shares are subject to a subscription tax at an annual rate of 0.05% of the net assets, calculated and payable quarterly at the end of the relevant quarter.

Subscription to Class R shares is open to any investor. Class R shares are subject to a subscription tax at an annual rate of 0.05% of the net assets, calculated and payable quarterly at the end of the relevant quarter.

Subscription to Class P shares is open to entities of Triodos Bank group qualifying as institutional investors. Class P shares are subject to a subscription tax at an annual rate of 0.01% of the net assets, calculated and payable quarterly at the end of the relevant quarter.

Subscription to Class I shares is open to institutional investors. Class I shares are subject to a subscription tax at an annual rate of 0.01% of the net assets, calculated and payable quarterly at the end of the relevant quarter.

Subscription to Class I-II shares is open to institutional investors who will invest an initial subscription amount larger than Euro 25 million. Class I-II shares are subject to a subscription tax at an annual rate of 0.01% of the net assets, calculated and payable quarterly at the end of the relevant quarter.

Subscription to Class S shares is only open to investors who are resident in Spain. Class S shares are subject to a subscription tax at an annual rate of 0.05% of the net assets, calculated and payable quarterly at the end of the relevant quarter.

Subscription to Class K - Institutional shares is open to institutional investors who are resident in the United Kingdom. Class K - Institutional shares are subject to a subscription tax at an annual rate of 0.01% of the net assets, calculated and payable quarterly at the end of the relevant quarter.

Subscription to Class K - Retail shares is open to retail investors who are resident in the United Kingdom. Class K - Retail shares are subject to a subscription tax at an annual rate of 0.05% of the net assets, calculated and payable quarterly at the end of the relevant quarter.

Subscription to Class Z shares is open to distributors and financial intermediaries, which according to regulatory requirements or based on individual fee arrangements with their clients, are not allowed to accept and keep commissions on management fee, subject to the approval of the management company. Class Z shares are subject to a subscription tax at an annual rate of 0.05% of the net assets, calculated and payable guarterly at the end of the relevant quarter.

#### Note 2 - Summary of significant accounting policies

The financial statements are prepared in accordance with Luxembourg regulations relating to investment funds using the following significant accounting policies.

#### a) Valuation of investments

The value of such assets is determined as follows:

The value of any cash on hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interests declared or accrued as aforesaid and not yet received is deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof is arrived at after making such discount as may be considered appropriate in such case to reflect the true value thereof.

<sup>\*</sup> As of January 1, 2021 Class D and S shares are no longer available.

The value of transferable securities, money market instruments and any other financial assets listed or dealt in on a regulated market, a stock exchange in another state or on any other regulated market is based on the last available price on the relevant market which is normally the principal market for such assets.

In the event that any assets are not listed or dealt in on any regulated market, any stock exchange in another state or on any other regulated market, or if, with respect to assets listed or dealt in on any such markets, the price as determined above is not representative of the fair market value of the relevant assets, the value of such assets will be based on reasonably foreseeable sales prices determined prudently and in good faith by the Board of Directors.

#### b) Net realised profit / (loss) on sales of investments

The net realised profit / (loss) on sales of investments is calculated on the basis of average cost of investments sold.

#### c) Foreign exchange translation

Triodos SICAV I maintains its accounting records in euros and its financial statements are expressed in this currency.

Assets and liabilities which are not denominated in euros are translated into euros at the rate of exchange prevailing in Luxembourg at applicable exchange rates at the end of the year.

Income and expenses in currencies other than euros are translated into euros at the applicable exchange rates prevailing on the transaction date. Resulting realised and unrealised foreign exchange gains or losses are included in the statement of operations and changes in net assets. The exchange rates used as at December 31, 2020:

1 EUR = 1.081557 CHF	1 EUR = 126.325408 JPY
1 EUR = 7.443469 DKK	1 EUR = 10.475958 NOK
1 EUR = 1.000000 EUR	1 EUR = 10.048454 SEK
1 EUR = 0.895095 GBP	1 EUR = 1.223550 USD

#### d) Income from investments

Interest on fixed income securities is accrued prorata temporis on each net asset calculation date and dividends are accrued on an ex-dividend basis.

#### e) Allocation of expenses

Each sub-fund shall pay for the general costs and expenses directly attributable to it. These fees are all part of the service fee. General costs and expenses that cannot be attributed to a given sub-fund shall be allocated to the sub-funds, in proportion to their respective net assets. These fees are all part of the service fee.

Since the introduction of MIFID II on January 3, 2018, research costs have to be paid either by the fund, or by the investment manager. The choice was made to have the investment manager pay for the research costs. No research costs are allocated to the sub-funds.

#### f) Formation expenses

The costs and expenses of the formation of the fund have been borne by the fund and amortised over a period of five years. Expenses incurred in connection with the creation of any additional sub-fund shall be borne by the relevant sub-fund and, where applicable, will be written off in proportion to their net assets over a period not exceeding five years.

#### Note 3 - Determination of the net asset value of shares

The net asset value per share of each sub-fund is expressed in the reference currency of the relevant sub-fund and is calculated for each sub-fund by dividing the assets of such sub-fund less its liabilities by the number of shares in issue in respect of such sub-fund.

#### Note 4 - Fees

#### 4.1 Management fee

The annual management fee of each sub-fund is used to cover charges and expenses of the sub-fund to be paid to the management company, the investment manager (if any) and the distributors of each sub-fund in relation to share distribution (if applicable). The annual management fee is accrued daily out of the assets attributable to the relevant class of shares or sub-fund as a percentage of the net asset value.

#### Management fee

Sub-fund	Maximum fee	Fee R-class and P-class	Fee Z-class and KR-class	Fee I-class and KI-class	Fee I-II-class
Triodos Euro Bond Impact Fund	2.00% p.a.	1.00% p.a.	0.60% p.a.	0.40% p.a.	0.30% p.a.
Triodos Global Equities Impact Fund	2.00% p.a.	1.30% p.a.	0.75% p.a.	0.55% p.a.	0.45% p.a.
Triodos Sterling Bond Impact Fund*	1.30% p.a.	n/a	0.50% p.a.	0.40% p.a.	n/a
Triodos Impact Mixed Fund – Defensive	1.50% p.a	1.03% p.a	0.58% p.a	0.38% p.a	n/a
Triodos Impact Mixed Fund – Neutral	1.50% p.a.	1.07% p.a.	0.62% p.a.	0.42% p.a.	0.32% p.a.
Triodos Impact Mixed Fund – Offensive	1.50% p.a	1.10% p.a	0.65% p.a	0.45% p.a	n/a
Triodos Pioneer Impact Fund	2.10% p.a.	1.70% p.a.	0.95% p.a.	0.75% p.a.	0.65% p.a.

<sup>\*</sup> Sterling Bond Impact Fund is not charged a management fee during 2020, as disclosed in the prospectus. Management fees are applicable for this sub-fund from February 1, 2021.

#### 4.2 Service fee and Depositary fee

The annual service fee of the sub-fund is also used to cover all charges and expenses to the depositary, the administrative agent, the registrar and transfer agent, the domiciliary agent and the paying agent. The annual service fee is accrued daily out of the assets attributable to the relevant class of shares or sub-fund as a percentage of the net asset value.

#### Service fee

Maximum fee
0.20% p.a.
0.25% p.a.
0.20% p.a.
0.20% p.a
0.20% p.a.
0.20% p.a
0.30% p.a.

#### 4.3 Taxes

All payable taxes are charged separately to the fund, value added tax exempted. This mainly reverts to the Subscription taxes as mentioned in Note 1 and 6.

#### Note 5 - Distributions

In each class of shares within each sub-fund, the Board of Directors may issue capitalisation shares and distribution shares. Distribution shares may pay a dividend to their holders, whereas capitalisation shares capitalise their entire earnings.

The annual general meeting shall decide, on recommendation of the Board of Directors, what share of Triodos SICAV I's profits shall be distributed from each relevant class of shares. Consequently, the annual general meeting may approve,

for each sub-fund or class of shares, the distribution of the net income and capital gains, realised or unrealised, after deduction of capital losses, realised or unrealised. The amounts corresponding to income attributable to the shares of a class for which it was decided not to pay a dividend will be capitalised in the assets of the class concerned.

#### Details of dividend distributions in 2020 (in EUR):

Sub-fund	Share class	Ex-dividend date	Payment date	Amount per share

Triodos Pioneer Impact Fund	Class KR - Dis	April 24, 2020	April 30, 2020	0.01

#### Note 6 - Subscription tax

Triodos SICAV I is currently not liable to any Luxembourg tax on profits or income, nor are distributions paid by Triodos SICAV I liable to any Luxembourg withholding tax. Triodos SICAV I is, however, liable to an annual subscription tax in Luxembourg, which in principle amounts to 0.05% per annum of its net asset value, such tax being payable quarterly on the basis of the value of the aggregate net assets of the sub-funds at the end of the relevant calendar quarter. However, such rate may be reduced to 0.01% per annum of the net asset value for specific classes of shares or sub-funds which are restricted to institutional investors (Class-I, Class I-II, Class KI and Class-P shares). Furthermore, if some sub-funds invest in other Luxembourg UCIs which in turn are subject to the annual subscription tax, no annual subscription tax is payable by Triodos SICAV I on the portion of assets invested therein.

#### Note 7 - Transaction costs

For the year ended December 31, 2020, Triodos SICAV I incurred transaction costs relating to purchase or sale of transferable securities, money market instruments, derivatives or other eligible assets as follows. The aforementioned incurred transaction costs are to be considered as a part of the acquisition cost of the assets they belong to.

Sub-fund	2020 EUR	2019 EUR
Triodos Euro Bond Impact Fund	_	-
Triodos Global Equities Impact Fund	275,943.00	466,901.34

### Note 9 - Global exposure

As required by Circular CSSF 11/512, the Board of Directors must determine the fund's risk management method, using either the commitment approach or the VaR approach. The Board of Directors of Triodos SICAV I has chosen to adopt the commitment approach as the method for determining overall risk.

<sup>\*</sup> These share classes were launched during the reporting year 2020. Ongoing charges 2020 are based on best estimates.

The ongoing charges reflect the total normalised expenses charged to the result, divided by the average net asset value. For the calculation of the average net asset value, each computation and publication of the net asset value is taken into account. The ongoing charges are calculated over the twelve-month period ending at the end of the reporting period.

#### Note 11 - Subsequent events

On January 1, 2021, Triodos SICAV I issued a revised prospectus. The major change consists of the revision of the fund's fee structure. As of January 1, 2021, the percentages of the management fee are as follows:

<sup>\*\*</sup> Triodos Sterling Bond Impact Fund was launched on October 30, 2020. Ongoing charges 2020 are based on best estimates.

<sup>\*\*\*</sup> Triodos Impact Mixed Fund – Defensive and Triodos Impact Mixed Fund – Offensive were launched on June 21, 2019. Ongoing charges for the year 2019 are based on best estimates.

#### Management fee

Sub-fund	Fee R-class	Fee Z-class and KR-class	Fee I-class, KI-class and P -class	Fee I-II-class
Triodos Euro Bond Impact Fund	0.80% p.a.	0.40% p.a.	0.35% p.a.	0.20% p.a.
Triodos Global Equities Impact Fund	1.30% p.a.	0.75% p.a.	0.60% p.a.	0.45% p.a.
Triodos Sterling Bond Impact Fund	n/a	0.50% p.a	0.40% p.a.	n/a

Triodos Impact Mixed Fund – Offensive	1.20% p.a	0.70% p.a	0.55% p.a	n/a
Triodos Pioneer Impact Fund	1.60% p.a.	0.85% p.a.	0.70% p.a.	0.55% p.a.

As of January 1, 2021, the share classes incur a fixed annual service fee to cover the expenses related to the administration and safekeeping of assets, and other ongoing operating and administrative expenses. The service fee is fixed in the sense that the management company bears the excess of any such expenses above the rate specified for each share class in the table below. Conversely, the management company is entitled to retain any amount by which the rate of these fees to be borne by the share classes, as set out in the table below, exceeds the actual expenses incurred by the relevant class of the relevant sub-fund.

The percentages of the service fee are as follows:

#### Service fee

#### Note 12 - Movement schedule

The movements in the Statement of Investment during the year are available upon request, free of charge, via triodosIM@triodos.com.

# **Audit report**

To the Shareholders of **Triodos SICAV I** 

#### Our opinion

In our opinion, the accompanying financial statements give a true and fair view of the financial position of Triodos SICAVI (the "Fund") and of each of its sub-funds as at 31 December 2020, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

#### What we have audited

The Fund's financial statements comprise:

- the combined statement of net assets for the Fund and the statement of net assets for each of the
- sub-funds as at 31 December 2020;
- the statement of investments as at 31 December 2020;
- the combined statement of operations and changes in net assets for the Fund and the statement of
- operations and changes in net assets for each of the sub-funds for the year then ended; and
- the notes to the financial statements, which include a summary of significant accounting policies.

#### **Basis for opinion**

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the financial statements" section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements. We have fulfilled our other ethical responsibilities under those ethical requirements.

#### Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our audit report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

# Responsibilities of the Board of Directors for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or close any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

# Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether

due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement
  of the financial statements, whether due to fraud
  or error, design and perform audit procedures
  responsive to those risks, and obtain audit evidence
  that is sufficient and appropriate to provide a basis
  for our opinion. The risk of not detecting a material
  misstatement resulting from fraud is higher than for
  one resulting from error, as fraud may involve collusion,
  forgery, intentional omissions, misrepresentations, or
  the override of internal control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control;
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund;
- conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Fund or any of its sub-funds to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
